Who Was Rosa Parks?

Synopsis

In 1955, Rosa Parks refused to give her bus seat to a white passenger in Montgomery, Alabama. This seemingly small act triggered civil rights protests across America and earned Rosa Parks the title "Mother of the Civil Rights Movement." This biography has black-and-white illustrations throughout.

Yona Zeldis McDonough is a longtime doll lover and collector. She is also an award-winning author who has published numerous books for children and adults. She presently lives in Brooklyn with her husband and two children.

This book did a good job introducing complex social issues and injustices on a level that my seven year old could understand. The book provided enough detail to serve as a springboard for further discussion without being so long that she lost interest in the subject.

This book was great, my daughter had to read it for class, she seemed to really enjoy it. My other daughter also read it, they both said that they thought it was super good. It is a good read!

These are great books. All of the Who Was books are excellent for young readers. My daughter gets very excited when she can teach us a little something about history and she seems to truly find things interesting. I think this is a great read for grades 3 and 4

These are such great books! I wonder if my granddaughter would even be introduced to Rosa Parks in school. She knows her now!

Great resource for my kids to learn from. Well written and easy to read for my 4th graders. My daughter loves whatbRosa Parks did and read this book many times.

I really liked the book. Didn't have a lot of pages but it had lots of information. I read it because my granddaughter did a project on Rosa Parks. I'm glad I did and I recommend it to any and everyone that can read.

All these books are great- my students love them!

A popular book in my class library.
