Customer Reviews

River runners of the Grand Canyon by Lavender David Sievert Lots of history from the beginning and the different vessels used to go down the river rapids. Designed their own levels of change in volume of water and size of waterfall. Like understanding how the boulders actually create the rapids. Liked Hopi folk stories as we met many of the women who were putting beads and jewelry together to sell to tourists on western rim of GC. Enjoyed learning about the individual expeditions and the types of boats used and why. So fascinating. I received this book from National Library Service for my BARD (Braille Audio Reading Device).
