I like it. It helps me look up the approx. value of my notes, and also has hundreds of pictures so I

can easily decide which notes I would like to add to my collection, and how much I should pay for them. It uses really thick, glossy paper, and has nice images with other descriptions and information that helps me locate the correct note. The front and back of the book has advertisements, which, I normally don't have any interest in, but in this case, they are nice, because they help me find dealers. I have already contacted one dealer from the book, and he is looking for a specific note for me.

Didn't go into enough detail. I want mules and plate combinations. This book is basics.
