Customer Reviews

Extremely thorough book that has excellent points and a step by step guide from creating to marketing your e-commerce business.

Halfway through the book and have already learned many invaluable lessons that I've already been able to implement and increase revenue.

This is a wonderful and at the same time overwhelming book, this is not a silver bullet, is a complete strategy to change an ecommerce business, Tanner is an expert in his field that preaches by example,

Awesome!!!Awesome!!!!Awesome!!!! Thanks!!!!

This book is fantastic. If you're doing eCommerce via or a Shopify store then you need this book to level up. Best of all it's not theory but actual, easily implementable examples. I bought this book last

night and haven't put it down since.

This is literally everything you want to know about ecommerce... I am going through it again as I launch my ecommerce business and will probably reference it for years down the road! If you really want to knit pick it, there are a few grammatical errors throughout the book.

Information overload! In a good way... Be prepared to take massive action if you get this book. He holds nothing back. A++

Still reading but from first chapter value packed
