Synopsis

This new edition captures all of the recent and rapidly emerging changes in case law and legislation, yet retains its student- and professor-friendly approach to the policies and rules of patent law. This version teaches the far-reaching legal tenets of patent law that are venerable and yet as current as the latest developments from the laboratory bench. Like its successful predecessors, this casebook draws on insights from other areas of U.S. law as well as from aspects of foreign systems.

Best Sellers Rank: #62,126 in Books (See Top 100 in Books) #2 inÂ Books > Law > Intellectual Property > Patent, Trademark & Copyright > Patent #645 inÂ Books > Textbooks > Law

Customer Reviews

A great book on the subject of Patent Law

it’s exactly the book my professor assigned for class and it’s in great condition

I wasn’t the biggest fan of the organization of this casebook, but it got the job done. With the help of a nutshell I was able to get a good grasp on the subject.

I never used the book. The instructor basically used outside materials. It was not worth buying given the little amount we used it.
