It dumbs down the language and leaves the student with little to do or learn. Everything will depend on your teacher's creativity and drive to engage you and broaden your learning; it will not be the book. I say that as a World Language teacher.

thumbs up

The textbook provides a plethora of vocabulary necessary for one who is learning Spanish in addition to various grammatical concepts. However, the book does not do a great job at introducing the learner to the Spanish language and is heavily reliant on an instructor; one would not do well by studying independently. Overall, this book does well for those who have had very basic Spanish, or those who are starting to learn with an instructor.

good
