First issue; first printing-classic series created by Todd McFarlane.

I picked up most of the first 2 volumes via single issues to try and get some backstory to Spawn and hopefully fill in some blanks for my read of Hellspawn. Lt Col Al Simmons was killed and sent to hell but made a deal with the devil that he could return to earth after 5 years to see his wife, Wanda. When he is sent back to earth he is disorientated, not remembering why he's there or the details of what he was sent for. He is now one of hell's minions complete with powers which he first uses to save a woman from being gang raped. Also on earth is The Clown/Violator who is there to keep an eye on Spawn but is wreaking havoc, killing off mob bosses by ripping out their hearts. This is keeping detectives Sam and Twitch busy although they feel that they are being misled somehow. Loved this, the story and art both drew me in quickly and I'm able to follow the story much better than in the Hellspawn series so this may help me a lot when I go back to it. The art is so different but still amazing, the panels pop with colour and detail and I especially liked how the Clown is drawn much different to Hellspawn but in some ways just as disturbing. The scene where Spawn is bombarded with memories and has to be comforted by the woman he rescues was a favourite in this issue, a reminder that even though he has superpowers he still has weaknesses. A great start to the series.

Great condition, never been opened, perfect coloring.

If you like violence and Gore and superheros than you'll love spawn.

Love the art work, story intrigues right away. Classic comic book vibe and look. Great respected work from the independent comic book company.
