nowhere in the description does it say there are no vocals on the tracks. Each song has two tracks, one with the drums and one without. This is probably good if your goal is to learn how to read music, because you can follow along with the charts as you listen to the drum parts. None of the tracks have any vocals however- so it is a purely instrumental play along. if I had known there were no vocals I would not have bought it. I thought I was getting the studio tracks with the drum tracks removed. This is some studio fill-in guys playing the songs with no singer- not Black Sabbath at all.
