I found this book to be vastly inferior to Puerto Rico Off The Beaten Path. Every time I looked something up I found lists of things with no richer content. A waste of my money.

Not what I expected, probably ok if you like to party and drink, but it did not work for us.

I will be going to Puerto Rico in May and although it doesn't have much information in the way of visiting Fajardo which is where I am going, it will do just fine. I am very much a traveler of off the beaten path. So this is perfect for me, it's informative, entertaining and without sounding rude at some points anti-tourist. Which is fine with me. :) So I would say if you're going to Puerto Rico pick up a book that's maybe a little more detailed for the part you're going and GET THIS ONE TOO!!

It takes anywhere without complications. I am original from P.R. but I was able to learn about new areas and places to explore.
