Synopsis

The HEXEN 2.0 Tarot is a 78 card tarot deck designed by artist Suzanne Treister and was originally published alongside the book HEXEN 2.0. The HEXEN 2.0 Tarot features 78 alchemical drawings depicting interconnected histories of the computer and the Internet, cybernetics and the counterculture, science-fiction and scientific projections of the future, government and military research programmes, social engineering and ideas of the control society; alongside diverse philosophical, literary and political responses to the advance of technology including the claims of anarchoprimitivism, technogaianism, and transhumanism. Through representing and re-examining these subjects and histories through the lens of occult belief systems and ideas of the supernatural, the HEXEN 2.0 Tarot takes us to a hypnotic, mesmerising space from where one may imagine and construct possible alternative futures. Acknowledging precedents such as the traditional tarot deck, The Rider-Waite Tarot Deck and Aleister Crowley's Thoth Tarot Deck, Suzanne Treister has here produced a new Tarot, that allows a reader, or a group of readers working collaboratively, to use the cards to reconfigure history and/or map out hypothetical future narratives.

Customer Reviews

Fascinating. Unique yet true to key Hermetic concepts. I will buy a 2nd set. One for readings and one for collection.

A spiritual and informational journey. Take time to look up everything on each card. I guarantee you'll learn something new.

This Tarot set is really amazing. It's very dense with information and pictures and it makes you think for a long time with each card. Really unique and thought provoking deck!

This is purely amazing.

Love this deck! I've just opened the Hexen 2.0 Tarot and my initial look at the cards truly "blew me away". The cards are extremely large, and the bits of information included in the card designs is intriguing. I feel a wealth of power and knowledge residing in this deck and will begin using it very soon. Any Tarot collector would enjoy this deck, and I would especially recommend it to those who are interested in the Internet, conspiracy theory, and governmental programs. I have a feeling I will be spending a lot of time with these cards and that I will learn a great deal from them.

I can't really put into words how deep and innovative this deck is. Absolutely not for beginners, even the most advanced tarotist will take some time just getting to know this wonderful and historic work. Each card is packed with symbolism and information about cybernetics, government control systems and the counterculture, all wrapped up in a beautiful alchemical framework. Not a deck for ordinary readings - more of a study deck and collector's item. Get one while you can, these are sure to bring hefty prices in the aftermarket.
