Fly, Eagle, Fly: An African Tale

Synopsis

After a stormy night, a farmer, searching for his lost calf, finds a baby eagle that has been blown out of its nest. He takes it home and raises it with his chickens. When a friend comes to visit one day, he tells the farmer that an eagle should be flying high in the sky, not staying on the ground. "But this eagle walks like a chicken, eats like a chicken, even thinks like a chicken," the farmer replies. Twice, the farmer's friend tries to get the eagle to fly, but it sees the chickens on the ground and drops down each time. At last the friend, followed by the farmer, carries the young eagle back into the mountains and places the great bird on a rocky ledge, just before sunrise. As the air is filled with golden light and the sun appears, the friend cries, "Fly, Eagle, fly!" and the eagle raises its wings and soars upward, out of sight. This simply told yet dramatic story from Africa will delight children everywhere and encourage them to "lift off and soar," as Archbishop Tutu puts it in his foreword. In lovely, expressive paintings of great beauty, sparked with touches of humor, Niki Daly, an internationally known artist, catches the essence of this powerful tale.

Book Information

Age Range: 5 - 8 years

Lexile Measure: 450L (What's this?)

Hardcover: 32 pages

Publisher: Margaret K. McElderry; 1st edition (February 1, 2000)

Language: English

ISBN-10: 0689823983

ISBN-13: 978-0689823985

Product Dimensions: 9.7 x 11.3 x 0.4 inches

Shipping Weight: 1 pounds

Customer Reviews

A favorite African fable, attributed to the Ghanaian educator Aggrey of Africa, soars in this superb inspirational picture book set in the Transkei region of South Africa. An African man discovers an abandoned, newly hatched eaglet and brings it back to his village, where he raises it among the

chickens. Knowing no other life, the eagle clucks, pecks and stays on the ground just like the chickens, until a visitor to the village tries to set things right. With determination, the visitor insists that the eagle be restored to its birthright: "You belong not to the earth, but to the sky. Fly, eagle, fly!" Daly's airy, dusty-hued watercolors celebrate both the serene beauty of a South African landscape and the gentle, humming rhythm of village life. Gregorowski, an Anglican priest, once worked in the Transkei; in an endnote, he explains the tale's religious and political significance and poignantly reveals that he retold this tale many years ago for his terminally ill daughter ("I wanted her to understand that we are all born to be eagles who are lifted up with the might of the Spirit"). A preface by Archbishop Desmond Tutu distills the book's powerful and peaceful spirituality. Ages 5-9. (Jan.) Copyright 2000 Reed Business Information, Inc.

While searching for a lost calf, a farmer finds an eagle chick. "The eagle is the king of birds," he says, "but we shall train it to be a chicken." And so the proud bird is raised among the barnyard fowl. One day, a friend visits and vows to prove that the eagle really belongs to the sky. However, each time he urges the bird to fly, it returns to Earth. Early one morning, the friend takes the bird to the top of a nearby mountain to greet the dawn. In a breathtaking moment, the bird rises with the sun and soars into the sky, "never again to live among the chickens." Gregorowski's retelling of a Ghanian folktale is a powerful celebration of the human spirit and its need for independence. It is beautifully complemented by watercolors, rich in the vibrant tones of earth and sky, which Daly dedicates to the children of South Africa. A foreword by Archbishop Desmond Tutu provides background on the tale. Michael Cart

One day, someone told me this story. I was so moved by the story that I checked and they had this beautiful book. The story and pictures have become a very important symbol that I have bought numerous copies to hand out to the teenage boys that have difficult lives that I have worked with at school. In addition, I keep a few on hand to give out to anyone I feel needs to have this wonderful book. It is my hope that they can refer back to it when life gets very dark for them. This story is more than PMA, it is true. It was awesome to read where the story originated from and the watercolored pictures and tastefully done. In addition, the information about the author is very touching and the forward by Bishop Tutu is remarkable. Yes, you will want to buy this book. Yes, you do!

This is a book of encouragement. This message is important for people of all ages at any point in their lives. The story was a life-changing one for me. Many people tell the story. (Some even claim

authorship.) However, this "author" gives credit to the renown educator and true author, Dr. J. E. K. Aggrey.

This is a great book for my classroom. The children love it and I love it also. There are so many skills I can bring out in this book. Must have.

I truly enjoyed this children's picture book, which appeals to all ages, because of the inspiration and message it conveys. In Africa a small eagle chick is found lost after a storm. It is taken back to a village where it is raised as a chicken. It talks, walks and eats like a chicken until one day a visitor notices that amongst the chickens there is an eagle. He tries everything to get it to fly but it believes and acts like it is a chicken, until one day he takes it back to the mountains where it was found as a chick to meet the sun at sunrise. Upon the mountain, once taken from the environment it has been placed in and seeing the bright light of the horizon and the view it realizes it can fly and does so and never lives the life of a chicken again as it soars high in the sky. I loved the message because it shows that we as a people have been treated like chickens by society, but we are truly royal eagles. Don't be content on being a chicken, but stretch forth your wings and fly! The illustrations are wonderful, and the message is worth attaining the book alone. This is a good book to add to the treasure chest of books within your home or your children's collection to inspire them to spread their wings and fly to reach new heights in the horizon's light! God is Love!

This African Tale is about a farmer who comes across a baby eagle and decides that he will raise it as a chicken, and so he takes it back to his farm and puts it with the other chickens. The eagle soon learns how to act like a chicken. Everything continues on fine until one day the farmer's friend comes over and says this is no chicken this is an eagle and he belongs in the sky. It takes the man three times until the eagle flies away into the sunset. I like this story because it shows how much things change depending on their current environments, and sometimes that environment can hold us back from being the best we can. The author does a great job at portraying the act of finding one's true self and become independent. The illustrations in this book are also great.

I bought this wonderful book for my nephews and loved it so much I'm buying another for my grandson. The story of an eagle that is brought up among chickens and thinks and acts like a chicken until it is encouraged to fly like an eagle has several messages. I'm a prison chaplain and it reminds me of the men and women who could be soaring on eagles wings if they can break out of

the mold of their emotional environment. It has a spiritual message - we are children of God and can live a victorious life if only we will appropriate it. It also can illustrate the release of the soul at death. But it is definitely a delightful tale in it's own right.
