## Customer Reviews

I have really enjoyed this entire series. I love the story line and hope that the author will continue the

stories of Darius and Christine and their family and friends. I particularly have enjoyed the development of the story characters throughout the series. They are very real to life for me, including some of the development of personalities and personal philosophies of the characters as they have grown and experienced life and its challenges. An example is the character of Alessandra. The way she was torn between her loyalties to her father, mother and Kelln. Her love of her father in spite of what she knew about him and the way that he controlled her; the need to find her mother; and the added torment caused by her love of Kelln, made her seem very human. I hope that we will hear a lot more from this talented author. If you haven't read this, it is a great read. Of course, read the first two books of the series first .

I really enjoyed this book. I'm still hoping there will be some type of follow up with the main characters. I would definitely recommend reading it.

This concluding book of the series was another page turner. This series is a nice, easy read with a good story. I've already read it several times and look forward to another read in the future. I'm sure there's a spin-off or two with some apparent insignificant characters, so I'll be on the lookout.

Finding words to describe these three books is very hard to do. I read book two in two hours cause I couldn't put it down. Book three took longer due to life getting in the way. Loved the whole story. Can't read just the first.

I found this through the Alaris Chronicles series. Can't wait for book 3 of the series!!!! love the way Shelton weaves love, honor and duty in both of these series. I have used some of his story lines as teaching tools for young kids I interact with in bowling leagues.

Rated this book a five because it was simple reading, plenty of suspense and action. I like books with wizards and magic and sword play were the good guys wins. Thanks!!!

I enjoyed these fictitious works whole heartedly.. I commend the auther and publisher for putting together these great works..Great read!

The end to a fabulous series. It's worth every cent. I'm buying a physical copy to share with my friends.
