One of our many dinosaur learning books. Like that the rhyming is cute and makes sense. Some of the other ones read awkwardly.

My 22 month old son loves the Dinosaurs books by Yolen. These books have a simple rhyming story line. Purchased as a board book which is thick and great quality.

I loves these books

I have ordered four of these books and my grandson just loves them!

I cannot imagine Nana life without Yolen's How Do Dinosaurs..... books. Nine years ago I started buying them for my first grandson, continued buying and reading to his younger brother and then his little sister. I give Yolen dino books as well as Sendak's Where the Wild Things Are and Base's The Water Hole to every little boy born into my life.

This entire series of books is fantastic! I love reading them as much as my kids love hearing me read them. The writer made these books incredibly fun for kids and adults alike. I will have the entire set on my shelves one day!

I LOVED the pictures. My daughter is 16 months old and would growl every time she saw the

dinosaurs. I liked how the dinosaurs depicted weren't your usual dinos that you normally see. The dinosaurs were also labeled in small lettering so that you can learn the real names. As a dino nerd myself, I was definitely happy to see this.
