Nellie Ryan grew up in New Zealand, and before becoming an illustrator, she worked as a fashion designer for Jasper Conran, an experience that taught her about drawing style and fashion. Over the past ten years, Ryan has illustrated over forty books, including numerous doodles books.

I like how it gets my daughter creating and thinking outside of store brand beauty products. She has so much fun making the projects and I'm a believer that nature provides all the beauty products we need- so I'm so happy to start her on the right track. Not to mention that her skin looks radiant when she gets done with a yogurt mask, and she made soap for her Grammy on mother's day. It's

awesome. They keep it real too- age appropriate and not all fakey, worldy, over concern with looks, but there isn't anything wrong with learning all the girl tricks you gotta learn as a young lady. I love this. My daughter's 9.

I gave this to a 10 year old girl, and she loves it. She was trying to figure out how to de-frizz her hair and sure enough, there was advice in this book. She was even reading "advice" out of it to a friend and I.

I bought this book for my granddaughter, for those questions they rather now talk about. My daughter said that as soon as she received it, her and her girlfriend went to her room and she could hear them laughing and looking though the book. It was very informative and I think it was a good choice! It covered a lot of information.

Granddaughter liked this book

This was purchased as a gift for a Salvation Army angel. I glanced at the contents and felt that it would be something she would enjoy and use.

My daugjter loved this book but when we got it almost all pages were crumpled or torn. she wanted to keep it so she went through the whole book with tape.

It is an amazing book I recommend it to others. I was very satisfied with it. If you are on the edge about I am telling you to get it. Whoever you are getting it for will be reading it like crazy

My 8 year old daughter fell in love with this book when she got it from her school library. She kept it checked out for over a month and half! So, she saved up money to buy it for herself. It has given my tomboy some ways to take care of herself and act like a lady when needed. She loves it! So does mommy! :DThe book has serious and funny things it teaches,anything from how to grow out your bangs and take care of a zit to how to act like a hollywood star! Great book and a great buy! Even mommy is learning a thing or two! ;)
