## Customer Reviews

Kate Boehm Jerome loves to write educational books for kids! Her award-winning programs are avidly read by thousands of young people in homes and schools throughout the United States. Jerome has spent an entire career developing educational programs for kids. After spending 15 years in educational publishing, she made the leap to full-time writing in 2001. Since then, her unique perspectives and original voice have inspired her to create and direct hundreds of children's books in many different series. Jerome's books have earned Teacher's Choice and Children's Book Council awards, and her new series that is currently launching "Cool Stuff Every Kid Should Know" (Arcadia, 2010) is already receiving kudos from the very people who often inspire her the most--the mommy bloggers! Kate is an active volunteer in her local school district and is a member of various Boards and organizations that promote both child and adult literacy--and, in particular, science literacy.

Great book, well written, perfectly written for my 4th grader's state research project. The pictures are

great and the terminology is right on his level and the facts are well vetted. The problem is I was hoping to add this to my personal classroom's collection when he was done with it, but after only 2 weeks of reading it, the middle staple came right out and the book is literally falling apart. He is an avid non-fiction reader and takes excellent care of books ever since he was very young, so it's not like he was mishandling it. However, if this book couldn't stand up to be read and reread over a 2 week period by my one 4th grader who is more gentle than most, it most certainly will not stand up to a classroom of kids or a larger family.

This book has great information in a fun style for older elementary or middle school kids.

Got for my daughters friend who was moving. Great pictures and facts.

A great read. Lots of information and factual information.

Totally bogus. Don't waste your money.
