Customer Reviews

This comprehensive and engaging book on all things mythological lives up to the expectations set by other entries in the National Geographic Kids series. Hoena emphasizes the commonalities between myths of different cultures, including the Iroquois of North America, the Norse of Europe, the Hawaiians of the Pacific, and the Hindus of the Indian subcontinent. Gods and stories are organized topically, covering a range of concepts such as mythical tricksters, stories of love, natural disasters, and creation and the underworld. The eclectic layout is colorful and lively, full of iconography, infographics, photographs, and illustrations. Mayor serves as our expert guide and is represented by a reoccurring avatar, popping up in the text to highlight and explain certain concepts.

Sidebars include recipes using fruits that were favorites of the gods, images of sacred places, and diagrams of celestial constellations. This compendium is highly successful in bringing to light the ways that myths across time and place relate to one another and to modern culture and language.

"With more than 100 full-color illustrations these titles are visual treats, while providing a good deal of content." --School Library Journal

Beautiful and colorful book, especially for young readers. My nephew loves this. Thank You!

Great book, my daughter loves it. She even loaned it out to her friends to use for research on a project.

our 7 year old grandson actually stopped unwrapping Christmas presents to sit and read this book. he has now completed it several times

Has enough detail to stir interest and read up more on for the children, as another reviewer has stated, missing some of the modern day mythological beings. Maybe will be included in later editions?

I bought this for my eight year old and he loved the book! It has beautiful pictures and stories that kept him engaged and wanting to read more.

My 7 yr old is really into mythology. I got him the NG book on Vikings and knew I'd love this one too.

This is a nice mythology introduction. It is easy to read, fast to review, and has nice illustrations. Enjoyed the review.

This book was a gift for my 8 year old granddaughter and she loved it.
