# How To Be A 3% Man

## **Synopsis**

Dear friend: This book teaches you the hidden secrets to completely understand women. How you can meet and date the type of women you've always wanted and have effortless relationships! How to get a girlfriend. How to date multiple women. How to get your wife or girlfriend back. Turn your girl "friend" into your girlfriend. Live the life of your dreams and accomplish your goals. How to get women to pursue you and approach you first, etc. My book covers both the dating world and long-term relationships. You will learn how to meet and date the type of women you've always dreamed of. The best part is you can do this while remaining who you truly are inside. The book teaches you how to create sexual attraction in women and get women to chase and pursue you! It takes you step by step with easy-to-follow instructions. You will be able to meet women anytime, anywhere, and anywhere. This will give you choice with women. Whether you are single and searching or are already with your dream lady, my book has the secrets most men will never know about women and that women don't know about themselves. Why should you buy my book? Because it is the lowest cost and highest perceived value of any other book on the subject of pickup skills, dating, and relationships. It offers more tips, strategies and techniques than any other book you will find. Unlike most other books that only give you attraction and pick-up techniques, my book will teach you how to successfully pickup up women anytime, anywhere. Then it will teach you how to transition into dating, getting her to ask you to be her boyfriend, and how to maintain a long-term, healthy, and drama-free relationship, free from nagging and arguments. I guarantee it will teach you more than any other book on the subject. Period!

Best Sellers Rank: #13 in Books > Self-Help > Relationships > Love & Romance #16 in Books > Parenting & Relationships > Marriage & Adult Relationships #18 in Books > Audible

## Customer Reviews

As a woman reading this, I even learned more about the small nuances of how I communicate with men that I hadn't considered and were pretty accurate. It also reminded me of my own worth, too; and that deep within myself I don't wish to settle for anything less than what I truly want to see in a man. I'd love to evangelize this book: It's like a cure for that nasty co- and counter-dependency. It'd be really great to see more men out there who are truly themselves and comfortable doing it, centered, strong, and sure of themselves. (Sure and centered; not arrogant, narcissistic, or controlling). It'd make everyone better. I've missed expressing my feminine side with a man that I knew/felt it was totally safe to do so with. I'm positive that many other ladies feel the same. I'd also love to see a woman's version!

I have watched Corey Wayne on his Youtube channel tons to receive his advise on things that I could never grasp on my own. He mentions that he grew up in a family where he never got to see the dynamics of a healthy mother and father relationship, and I myself also grew up in a divorced family. I never saw my dad and mom together, so I never really understood how to approach women. Women always told me I was cute, but I could never keep them interested or they'd get bored because I didn't know how to react in situations that he goes over in the book. I even went to therapy once--which was BS because all the therapist told me was the usual move stuff (be a good person, keep trying, blah blah blah)--basically stuff from someone who isn't going to be honest about the dynamics of a relationship between men and women and how you actually stay in a relationship with a girl/wife. I'm 23 now, and it is still hard for me to figure out what the hell I've been doing wrong until I finally read his book. It's helped me in so many ways. Since I went into high school I approached women all wrong and failed at every signal, test, social situations that you can name involving a date or potential girl attracted to me. This book maps out everything you need to do to correctly have a girl who is interested in you stay interested in you and become your gf/wife and stay interested in you. For me, I could always get a date or whatever, but it never seemed to last. Now that I know what the heck I'm supposed to do as a man, I feel like I can understand where women are coming from and actually keep them interested in me. I can even recall certain events in my life where I "applied" some of the things he talks about in the book and women were actually interested in me (i.e. being confident, funny, standing up for myself) and all of the times I failed as well (being too easy, giving them what they want and not understanding why they got bored and left,

etc.). If you've watched his Youtube videos, you should definitely buy his book. Corey is no nonsense and isn't going to dance around how men are supposed to be and how women naturally are like a therapist would or some movie does. Definitely read it if you sound anything like I did in the past. Thanks!

I needed some advice quick because I came upon meeting an amazing woman. Was looking for advice on YouTube and came across to this author's videos which I found very informative and makes total sense. The book gives more details so I highly recommend it. Wow, where do I start? It seems like I lived through 3 lifetimes and still no success with women. I guess now is as good a time to try to change given it's the new year. I have read countless of these books before and I think this one makes the most sense. It's amazing how much BS is on this topic and there is actually a book out there that teaches you to become friends with a girl first and then tell her that you like her. Ridiculous. DO NOT DO THIS. I HAVE DONE THIS MANY, MANY, MANY TIMES AND FAILED MANY, MANY, MANY TIMES. I haven't really tested this book's techniques since I just finished the book but I'm pretty sure they will work. Why? Basically, everything this book is telling me NOT to do, I've been doing them my entire life:-Being insecure, always thinking about other guys and how I compare to them-Being jealous even though she is not even my girlfriend yet-Being really down on myself and falling in a deep depression for many months after a failed attempt-Showing feminine traits and weakness-Not being strong and decisive, letting the girl take control-Buying her expensive dinners and gifts on the 1st date, 2nd date, 3rd date, etc, etc...-Talking too much about myself and trying to impress her with wealth and accomplishments-BEING TOO SERIOUS-Not focusing on giving and only what I will get-FEAR OF REJECTION AND FAILURE-Hanging out with her friends and in so becoming part of the 'group'-Being a doormat and letting her have her way because I was so 'in love' with her-Thinking a great date activity is going to the movies-Not going for the kiss, which again, brings us back to FEAR OF REJECTION AND FAILURE-You know, I'm pretty sure I'm missing tons more, but that was my life. Basically, the author tells you to NOT do these things and more. The only negatives I have for this book is that the writing doesn't necessarily flow and there are too many stories. I'm a non-fiction reader and would just like facts presented to me quickly. Of course, fiction fans may appreciate this style. So I took off a star in the review because of these minor grievances but otherwise an important book with important information that everybody should know and practice. The thing that stuck with me is to compare yourself with James Bond. For example, would James Bond care if some other guy is hitting on the girl you like? Heck no, because he's f-ing James Bond. Would James Bond worry if the girl you like is dating another guy? Again, he

would be laughing at the other guy. This is the mentality you should have with women which for years I lack. Actually, just a week before I read this book, I was thinking about this guy who I saw hitting on the girl that I like. I mean I didn't even ask this girl out and I'm not even focusing on her but on the guy because I was afraid he would be successful. Weak. Another useful analogy would be to picture women as cats. Cats need a lot of coaxing and time to get used to you so telling a woman you are in love with her or you want to marry her, right off the bat won't help you. Basically, the guy needs to be strong, confident, and in control. He needs to be focused on the goal, while at the same time give the woman a fun, comfortable, and enjoyable time. No doubt, easier said than done and will take practice for change to happen. Another reality check that the book mentions is to just go for women interested in you. Why waste your time with someone who has no interest in you? While this is true, that can only mean if the hot girl you are pursuing is a 9 and you're a 3, chances are bad. This is not always true, though. I myself am probably a 3 or 4 at most but I usually go for women at least a 5, but usually get around that range. There were probably 2 or 3 times I went out with a 8 or 9 so stuff happens. I think that I might have married one of these girls had I have the knowledge possessed in this book at the time. Another point to learn from only focusing on women interested in you is to stop fixating on just one woman whom you think is your soul mate when she could care less about you. This was a big problem I had in the past and from reading blogs on the internet, a common problem with a lot of guys. I guess somehow I think if I stay the course, she may change her mind miraculously. Again, the cat analogy is important. The woman needs space and time and maybe she will come to you but she may not. If you constantly focus on her and instant messaging her everyday and pursuing her, the cat will not come near you. I actually done this to 2 girls. One had a boyfriend already so I wasn't really putting too much hope on her and she was also engaged. We meet up for dinner like once every 2 months and that's about it. An email once or twice a month. And then suddenly, before I know it, they broke up and I was dating her. It's incredible the crazy stuff that happens when you just forget about her and go with the flow. Now the other girl, I did the total opposite. I was obsessed with her. I instant message her everyday. I told her I was crazy about her and we're not even dating. I told her I'm so jealous of the guy she's dating. Sure enough, nothing happened because not only were we in the friends zone for so long, but I displayed so much weakness that looking back now, there is no wonder she avoided me at all cost. Again it all goes back to James Bond. Would he focus only on one woman? Silly question. Basically, not only does James Bond go out with many women but he focuses on his mission. We can all be better dudes if we find a purpose or goal in life and just focus on that. Everything else will follow. I also recommend the movie "The Secret Life of Walter Mitty" which is about this subject as well. It's funny

how everything just comes together all of a sudden and hits you. I just feel the movie, this book, and everything happening is happening all at once for a reason. So fast-forward 5 years to last year. I am finally over that girl I was obsessing. Pathetic, I know. We never even dated. Before my breakdown, I was pretty active and doing stuff everyday like mountain biking, skiing, and snowboarding. But my deep depression from that girl practically put me in a comatose state. I just slept all day. I didn't do anything. I was a walking zombie. Oh, probably the worst thing that I did was spending hundreds of thousands of dollars on expensive stuff because I was so depressed. I finally decided to get out of the rut last year because I was just tired of moping. A whole f-ing world out there and plenty of living to do. Did a lot of travelling, found a new job, basically got my s together. Which brings me to back to how I got here in the first place, I met this girl. She is not your typical woman and a 11/10. A 11. Perfection. I seriously doubt my chances but at the same time confident and hopeful now that I have knowledge from this book. Fear is such a bitch. It's funny how I'm fearless and so top of my game at the workplace but so weak when it comes to women. I guess when the little lab hamster is shocked each time for biting the cage, he eventually becomes fearful of the cage. Anyway, never again will I live in fear. Try, learn, move on, repeat. Game face. James Bond. Wish me luck.

I've read this book once, and I firmly believe it is one of the few books that has to be thoroughly chewed and digested! It told me how I managed to build my last relationship, (I was the 3% man who got complacent) and how I drove it to oblivion. I just wish I was able to know about Corey and his book and internalize the contents 7 yrs ago. I would've saved my last relationship / hurt her less through the process.. Cheers to you Corey! I'll definitely read it atleast 10 times more!
