## Customer Reviews

This map format might be great for smaller countries but it seriously lacks the detail one would look

for in a driving map of a large country like Australia. A multipage road atlas would a much better buying choice.

Not nearly enough detail to be used as a driving map. Secondary, city maps have good detail.

Nice map! Great for traveling as it's coated and doesn't bend!

Excellent map of country and citiesMajor cities had both area and downtown detail mapsDurable

Very clear, stiff and wrinkle/tear resistant. Going there and will need to have an easy map to help us navigate.

This is a very general, not very detailed map. I was looking for something more.

Just what I wanted

Was useful on our trip to Australia.
