Customer Reviews

This series of guide books from back in the 1990s is great. Obviously the touristy information about hotels and restaurants and prices is now useless. But the cultural and historical information was written by top scholars, and the pictures are great, so they are still very useful for background information. You wouldn't want to carry it with you on your trip but you might enjoy reading it before you go.

Agree 100% with Mr Gelek! I still refer to it when planning my trips (not for the hotels of course).
