Roger Tory Peterson, one of the world's greatest naturalists, received every major award for ornithology, natural science, and conservation, as well as numerous honorary degrees, medals, and citations, including the Presidential Medal of Freedom. The Peterson Identification System has been called the greatest invention since binoculars, and the Peterson Field Guides[®] are credited with helping to set the stage for the environmental movement.

Excellent book and shells are easy to find with the very clear photos. There is a lot of great info and it is a very useful book.

Excellent field guide with color photos. Could use some updating, but otherwise, a great little book!

great book

I was very pleased with my purchase. I received it quickly & it was just what they said it would be,
Thank you

Really nice book. Can't wait to get back to Florida to find some more shells!

This is an essential guide to have if you are trying to identify shells of Florida (Gulf and Atlantic sides)! Highly recommended!

Great and fast service.
