Customer Reviews

Absolute must read for any Jung enthusiast. Great insight and analysis. Definitely a heavy read though.

Jungian!

This book left me wanting to read more works of C.G. Jung, and to learn more about Gnosticism. I look forward to completing my religious education one day, and this has pointed me toward important points I had yet to explore.

Hoeller provides a readable overview of one of Jung's most intriguing works.

Very neat about sacred marriages, Abraxas, the seven songs of the dead, the growing one, the dying one. The Tree of Life.

I love esoterica and I have admired Jung's work for many a year, but having just learned of this one, I am absolutely aglow. Knowing Jung's work on The Shadow, it makes everything much more

appreciable to learn of Jung's history with the likes of Gnosticism and Alchemy... Magical things as opposed to dead and dry philosophical concepts, oversaturated with silly logic. This book tells a tale that is dynamic, juicy and entirely live-able. Hoeller did a fine job with this one and will be a good companion if you are in to deeper wisdom, existential insights and especially the Black Arts. Well done... I find that there is too much here to savor; I read it only a few pages at a time and weeks may pass between reading. - In short - I don't want to finish it.

Excellent and this Author is amazing . Listen to him on this an other similar subjects on you tube.

A true source book for Jung's beliefs. Not an easy read for sure but a valuable source that probably requires reading and rereading a few times.
