Culturas De Espana (World Languages)

Synopsis

An engaging reader, *CULTURAS DE ESPAÑA*, 2e offers a wealth of authentic texts and visual materials and encourages learners to think critically about the cultures of Spain. While other books present Spanish civilization as a neutral recounting of historical facts, events, and data, *CULTURAS DE ESPAÑA*, 2e emphasizes that history, culture, and civilization are concepts under constant construction. Its intriguing conceptual focus brings to life the history and everyday experiences that shape national identity. Prior knowledge in the target language is required.

Yep its a textbook.... That being said its a very good and interesting book if interested in modern Spain and its socio-political and economic environment of today. I recomend it for the flight across the pond on your way to visit.

ok

condition was very good for a used book, got everything I needed for my class

Very bad conditions

Mandatory for undergrad class. Total rip off. Spain has a mess up history.

It was everything I expected. I dropped the class so I didn't need it anymore.

thanks

Condition: UNNACEPTABLEI'm returning this textbook because the book is in absolutely terrible and horrifying condition. It is an extreme poor condition. The book looks like it was put into water and left to dry. The pages are stuck together leaving them without being able to be read. I am immediately returning this book and I want my money back. Thanks.
