Customer Reviews

I purchased this for myself but my daughter (college aged) usurped it. The pages are black in the background and using neon gel pens really makes the pictures pop. This is quite popular among the college aged crowd and probably a good safe stress reliever (better than drinking). I would recommend adding these types of products along w/gel pens or neon pencils in care packages for college kids around exam times.

Sharpies and markers go very, very dark and don't even look like their actual colors on this paper. You will probably want to only use colored pencils on this book.

This was a gift for someone else. I bought 10 of them and don't know who got which one.

Cool book

This coloring book made me laugh so hard!! It's not for everyone though. I must be getting old because some of the phrases were so bad that I wouldn't even say them...none the less, very funny!

Purchased as a gift for a co-worker. It was a huge hit! Since most of the people I work with have potty mouths and an eye for color this was a no brainer!

Than coloring the inner &@tch out of you onto these beautiful pages that don't even require you to stay in the lines!

Gave this to a friend for relaxation. She was thrilled! Loved it. It's hilarious.
