Customer Reviews

I recommend this book to all people of color! It's an eye-opener that will help you decide what to do!

J.L had the same questions and concerns as I do/did. The more you start to study African history the more Christianity doesn't make sense. It is most certainly not for "us". As he stated, it's a belief and a myth that has gone on for centuries. We, African Americans in particular, need to understand our documented history and not just go along with tradition! This book was an eye opener and although I did not agree with all his points I do believe this is a great read for those who are at a crossroads. Thank you!
