# The American Indian: Secrets Of Crystal Healing

## Synopsis

The Native Americans are particularly concerned with the misuse of crystals, and the potential harm that can do. This book reveals the age-old secrets - many handed down by word of mouth through generations - of the Native American tribes.

## Customer Reviews

take what you want from it, add it to your studies. Very well written i believe, for beginners or people waning to learn specifically about that type of crystal healing. like the others i dont agree with EVERYTHING he writes but honestly who does agree with every fact from every book. So if your reading negative reviews, throw that out of your mind and buy the book its well worth it and you cannot go by others opinions. You will get something out of this whether you fully agree or not! I say BUY it!!!!

Interesting book, refer to it sometimes when pulling a random stone for daily healing.

A different approach to what I have read before about crystals. Informative,quick read. The color of stones and crystal chapter was good,as well as the planet symbolism to crystals.

thanks

A must buy!

I'm so glad Mr. Luc Bourgault wrote this book, in this new age era, the mantra anything goes is used to sell books, very little is published about the rules and law's governing the elements your working with. I bought a few books on crystal healing, but sadly was lacking any type of information, on how to properly handle crystal. luckily I ran across Mr. Bourgault book, I cannot thank him enough for writing this book, for many years I have been wanting to work with crystals as I have been a spiritualist since age 14. however my energy is sometimes unstable due to my fiery nature. I learned crystal is a dangerous tool to work with, unless one's energy is stable and that great harm can result in handling them incorrectly. while I'm an adept at rootwork and conjure. crystal's are whole other element. I'm glad I had the chance to be led to this book, as I realize there is much work to be done to stabilize my energies before attempting to work with crystals. oftentimes I have seen great harm come to those, who practice magic with out knowing the rules and listening to the "so called experts" mantra anything goes. the rules are in place for a reason. their are laws governing everything and everyone on this planet, regardless if one chooses to adhere to them or not. after much meditation, cleansing and balancing my energies, I'm now ready to work with crystals. had I not run across this book, I probably would have done grave harm to myself or someone else. thank you for injecting some common sense in this sphere Mr. Luc Bourgault, thank you for writing this book.

it is so good that i want more info, there will be ppl that is not agree about the information in the book,as i read the on the reviwes but for me this author is given to the crystal the importance and respect that it should be given from any researcher or any apprentice. i will look for more books from this author.

I purchased this book as a reference for a research paper in college. It is wonderfully written and full of history, crystal healing, tips, etc. I would recommend this book to anyone wanting to learn more about Native American life with crystals.
