This book will incorporate you to discover the crucial information regarding Tantric Sex. The amazing benefits of tantric sex has already been practiced by millions of people all over the world. This book covers the origins and history of tantric sex, practical ways to incorporate tantric sex into

your own life, the science behind it, the pros and cons, and the future benefits of this practice to adjust the sexual relationship you share with your partner. Being introduced with you will be able to grasp the life-changing experience of tantric sex.

Tantric Sex not only helps to bring two people together but also helps them grow individually. This is the process of unifying two souls. This book highlighted the various benefits of tantric sex and also showed how it works for couple in garnering a new level of pleasure. Following the given guideline a couple can explore the absolute limits of their sexuality. Couple engaged in tantric sex can reach the ultimate limits of sexual experience individually and thus a very deep sort of connection is made. The best book for a newly couple. I like it.

This book has some good practical information, I really like some of the concepts presented and am looking forward to putting them into practice when I am in a relationship. I love the idea of sex not being about a race to the finish line or orgasms, but rather about the spiritual connection between two people. I have experienced that when you and your partner are able to put expectations aside and focus on connecting then sex becomes much more enjoyable. According to this book it can also lead to mind-blowing full body/ multiple orgasms, although this is not the goal in Tantra. This book outlines some things to help in your tantra sex journey such as exercises to work on together, positions, and message. I would have given this book higher star rating, not the grammar in spelling in it is not good, and very distracting. At one point I grabbed a pencil and started correcting things it was bad enough, and often I was having to re-read paragraphs trying to understand them. Overall I really enjoyed the good basic information given, but I really wish it was better written.

When I read that 20% of married couples below the age of 40 only have sex a couple of times a year, I was shocked. Too much else going on in their lives, I suppose. While tantric sex is a sexual activity it is also much more than that. It's a mutually engaging sexual activity resulting in satisfying each other but a way to amalgamate into one soul, a way to garner divine consciousness. Tantric sex can be used as a pathway leading toward sexual nivana. It is, according to the author, Jeffrey Dawson, physical, mental and spiritual. He describes various positions couple can take to achieve this special kind of union.

I have heard many times about tantric sex but never really got to know what it was about until now after reading this book. In this guide, the tantric sex it is really well explained, it tells you everything

that you need to know about this, with all the tips that will help you to understand and make tantric sex a delightful experience. I kinda read it in one day because it is really interesting to read and it makes you to feel great while doing, so if you want to know about this topic, buy it as soon as possible, you will not regret! Great guide, keep up the good work!

Tantric sex is the method by which two individuals can connect each other on a deep level basis. This connection turn into dependency. a mimicked dependency and connection are not accepted and expected while living a conjugal life, everyone prefers having the same sexual partners. This book will show a couple the path of better communication between themselves. They will discover the benefits of tantric sex, many techniques and positions by which they can increase love alleviating depression and handling power struggles. And ultimately they could build their relation based on tantric sex that will definitely help them house together forever.

If you are looking for a way to increase your enjoyment during sexual intercourse and when you're spending free time with your partner, take a look at this book to see if it can help you. There is so much to learn from this book about tantric sex, and also about kamasutra, communication between couples and about sex and dating in general. I love how straight to the point this book is and I plan on using what it has taught me.

I just have to say I learned a lot from this book. I never knew there was so many tecnicques to sex. I love the emphasis on communication. After I read this book I discussed trying the tantric sex with my husband and to my surprise he was willing to. I am so thankful I read this book because not only has it given me many ideas physically about sex but it has also helped me emotionally. I love how straight to the point this book is and I plan on using what it has taught me. I received this book at a discount for and honest review. I have already suggested it to my sister.
