A+

This totally helped me practice. 15 years later I bought it for my niece who started laying trumpet and she got really into it too!

Price was right and the titles were great. Bought this for my daughter while she learned the instrument. And now she can play almost every song in the book. :-) Definitely a great item for anyone just starting or for an expert.

love it

SOO glad that I got this book. I purchased it for my brother who plays and I personally have gotten hours of enjoyment out of listening to him play. Always fun to hear old movie Themes.

Fast. amazing deal

I purchased the flute book because it contained the music for Chariots of Fire and was not disappointed with it or the CD that came with it. Received the book promptly and in good condition.

So far great. I just started using them and they have been super. I'm not an artist but they make coloring fun and easy to get into the small intricate spaces.
