Let's Review: Integrated Algebra (Barron's Review Course)

Synopsis

Reflecting the latest New York State curriculum change, this brand-new addition to Barron's Let's Review series covers all topics prescribed by the New York State Board of Regents for the new Integrated Algebra Regents exam, which replaces the Math A Regents exam. This book stresses rapid learning, using many step-by-step demonstration examples, helpful diagrams, enlightening "Math Fact" summaries, and graphing calculator approaches. Fourteen chapters review the following topics: sets, operations, and algebraic language; linear equations and formulas; problem solving and technology; ratios, rates, and proportions; polynomials and factoring; rational expressions and equations; radicals and right triangles; area and volume; linear equations and graphing; functions, graphs, and models; systems of linear equations and inequalities; quadratic and exponential functions; statistics and visual representations of data; and counting and probability of compound events. Exercise sections within each chapter feature a large sampling of Regents-type multiple-choice and extended response questions, with answers at the back of the book. Students will find this book helpful when they need additional explanation and practice on a troublesome topic, or when they want to review specific topics before taking a classroom test or the Regents exam. Teachers will value it as a lesson-planning aid, and as a source of classroom exercises, homework problems, and test questions.

Book Information

Series: Barron's Review Course

This book has it all. If you want to succeed on the NYS Regents Exam in Integrated Algebra, this is the book for you. It is separated by topic and has practice questions about each topic. It also includes practice Regents Exams in the back of the book.

Lets Review ... Is the BEST IN THE WORLD. A handbook shape so that I can carry it easily and light weight. I bought all the lets review... Book for all my class subject. Recommend!

This was recommended by my child's teacher, and she did well on the state rests.

NEEDED THIS FOR SCHOOL. LOVE THIS BOOK

Good h

exactly as described

Got me an 81 on the Regents in a class I had a 70 in. Highly recommend. If you actually put in the time every night and study it hard, you can do great on the Regents.

Great price! Quick delivery!
