Customer Reviews

Being a career adviser, I know how important this book is for the students and grads. Why study Sexology? Answers are in the book but I can say with 100% conviction that you will not be disappointed by buying this book. In fact, many college students change their majors and it simply wastes their time (and of course their parents' money). If you buy this book, you will be able to save thousands of dollars for your parents in tuition fees. Graduating months earlier means you will have more opportunity. I read chapter by chapter and found all the chapters very insightful. Look at the universities - all the professors come from top universities, and they offer very insightful tips. Trust me - Sexology for the Curious is a must-read book for the students and people who are undecided about their career options.

I am curious about the career in Sexology and sure, this book is for me. I read the book with great interest. Tens of top professors have openly expressed their views to help the curious people like myself. What I mostly liked was the fact that I could picture myself in this career field. Surely, I will get some experience and will do further studies in this area, possibly a PhD. To be honest, I wouldn't have known anything about it if I hadn't read the book.

So, guys ÆfÂçÃ â Ñ Æ you would be better off spending some money for this book rather than being undecided as to what to study for your college major or career. If you are seriously considering a career in Sexology, I highly recommend this book.

Why study SEXOLOGY ? You really need to read this book to find the answers. You will be surprised with the high quality of chapters written by top professors in this field. The best part of the book is that ÆfÂçÃ â Ñ Æ it ÆfÂçÃ â Ñ Æ„s co-authored by multiple authors. It simply means that you will get to read multiple perspectives rather than a view from a single author. More importantly, this book is peer-reviewed. Although academically peer-reviewed, it ÆfÂçÃ â Ñ Æ„s been written with a college student in mind in layperson ÆfÂçÃ â Ñ Æ„s terms. If you are curious about your major/career in this field, you will be glad you bought SEXOLOGY for the Curious.

When I read this book ÆfÂçÃ â Ñ Æ I wanted to say WHY NOT STUDY SEXOLOGY? Every chapter is so powerful! Rather than getting a perspective from a single author, this book offers multiple perspectives. Another notable thing is that this book has been co-authored by top university professors mostly from the USA. To be honest, I had to change my major three times before finally settling on this major. What a waste of my time and my parents ÆfÂçÃ â Ñ Æ„ hard-earned money? I wish I read this book when choosing my major. Having read this book, I am now confident about my career in SEXOLOGY.

Sexology for the Curious! OMG!! Guys ÆfÂçÃ â Ñ Æ I am totally honest here but you would never get to read a peer-reviewed book like this one for this price. I wanted to work in this field and was considering this major. However, I was not sure if Sexology was for me. So, I bought this book. Every chapter was so intriguing that I finished the whole book in one go! I was very much impressed with the quality of the book. Some people might even say that you get all the information on the Internet these days. But my question is ÆfÂçÃ â Ñ Æ where else would you get such original perspectives from multiple top professors in one place? Where else would you get information from the top minds of the world which you can trust? Why consider a career in this field? Why study Sexology after all? Guys ÆfÂçÃ â Ñ Æ I am again totally honest here ÆfÂçÃ â Ñ Æ the answers are found in the book ÆfÂçÃ â Ñ Æ “Sexology for the Curious ÆfÂçÃ â Ñ Æ •

I liked this book on Sexology. This book helped me clearly understand what actually Sexology is. For just \$10, this peer-reviewed/academic book is a real bargain. I was confused as to what to

choose for my undergraduate major and this book opened up my eyes. I found this book also useful for graduate or PhD studies. The good thing is that - there are so many top professors writing the insightful chapters in plain English for the students like myself. I think it will save the students (and their parents) thousands of dollars because changing the major again and again will cost them lots of money. I showed this book to my parents and they were glad I bought it. Yes - I highly recommend it. It will be a major decision of your life - if you are considering a career in this field, you must know why study Sexology.

One of the best books for career-oriented students, you will love this book.
