How To Play Harmonica: Beginner's Instructions For Breathing, Rhythm, Keys, Positions, And More

Synopsis

Have you ever been at a party, a concert, or a wedding where someone pulled out the harmonica and led everyone in a great song? What fun! The harmonica has been around for centuries, providing lots of great music and enjoyment. One great thing about the harmonica that has made it so popular is that it is so easy to learn, and bring with you wherever you go. In this audiobook, *How To Play Harmonica*, you will learn what you need to know in order to teach yourself the harmonica. This book is truly designed for beginners. The author starts by explaining the various terms when talking about and teaching the harmonica. Next, you'll learn about the types of harmonicas and what kind is the best to start with as a beginner. As you read on, you'll be taught how to breathe properly, and learn how to read harmonica tablature, commonly known as tab. The book also explains how to clean and care for your harmonica, as well as keeping it properly in tune. Lastly, you'll learn about keeping good rhythm, playing the blues, and strategies for successfully performing for a live audience. With the tools and information in this audiobook, you can teach yourself how to play the harmonica and enjoy music wherever you are. Start learning how to play the harmonica today! Customer Reviews

When I was younger, like most kids, I had a harmonica but didn't really know what to do with it. I'd try to make music, but usually that didn't go very well. With this beginner's guide I now understand

the instrument and am encouraged to try it again. When I give my grandkids a harmonica as a gift, I'll be sure to include a copy of this book. It truly is a versatile instrument if you know what to do with it. And now I do!

This is one of the best books I have found on the harmonica and how to enjoy using it. Very thorough, covers great information for beginners and even those who have been playing awhile can benefit from the instructions. Nice illustrations that help clearly to point out the parts of the harmonica, how to place the hands and fingers for the different tones a person wants to play. Recommended resource.

They tried to cram too much into too few pages. Confusing and not fully accurate. For example, made it sound like bending is simply using more air. Too much detail about theory and very little on actual technique. Wouldn't recommend for a beginner. You can get much more helpful info for free on internet.

I was totally disappointed with the book: it had songs to play with, it had no illustrations and lack any type of musical value

Doesn't teach you how to play, discusses parts of the harmonica and how to properly hold it. I was expecting further instruction

There is nothing here that cannot be had for free on the Internet. A total waste of \$2.99. I am surprised it would sell this.

Great read. This book gave me memory's when i was little. Breathing, and rhythm. My son who's 7 years old is learning how to play. I would love to have a video that i could buy. I Love this beginners book.

interesting book its a great beginner book for those wanting to learn how to play harmonica. no riffs in the book really but has taught me some new things and facts about the harmonica i didnt know.
