Customer Reviews

After working on several Mandalas and other adult coloring books of various themes. I was looking to branch out and was looking especially portraits. I decided on this this book having an interest in tattoo designs. When this book arrived I was very disappointed at the layout of the illustrations . The tattoos are largely flash designs, which isn't bad except for the way they are presented would not work well on the body the way they were drawn. Some designs also were overcrowded. The facial expressions chosen in some pictures, I believe were an attempt at being sexy but they appear more creepy. Not a good depiction of tattoos or portrait art. Personally didn't like it and would not recommend.

This book is excellent! The photo is a work in progress. I bought the book months ago, but when i

got Prismacolor pencils for a gift, I bought it again so I could really make the pictures pop! Love this book

I have done lots of the Dover coloring books, but this one is my favorite. The images are really elegant and varied enough that they're not boring. The designs are large enough that you can add details very easily. The only thing that isn't great about this is that the pages are two sided. So if you mean to display them you are forced to choose. Or you can buy two.

30 detailed images of men and women with intricate tattoos. I would give this book 4 stars because it is printed double-sided. Publishers need to start printing images single-sided so people using markers can color the images without ruining the image on the reverse side. However I plan to copy mine onto 90lb cardstock printer paper so I am choosing to rate this 5 stars on image quality alone.

I LOVE REALLY INTRICATE DETAILED PICTURES TO COLOR AND BOY THIS ONE FITS THAT REQUIREMENT!!!!!! THE PICTURES ARE REALLY AWESOME FOR ADULTS. IF I RATED IT ON A SCALE OF 1 TO 10 IT WOULD BE A 15

Yes the tattoos are ridiculous and completely out of proportion but it's a coloring book not a priceless painting. It is more interesting to have the pictures set as tattoos instead of just random pictures on a page.

I am a big fan of the Dover coloring books. They always have such fun themes and different things. I also really love how heavy the pages are. I prefer to color with watercolor color pencils because the pages are strong enough to take the application well. This book is a fun one! It's all tattoo and body art designs. The pages are full of nice illustrations that have plenty of room for multiple color applications. I think it's my favorite of all the Dover books thus far. There really are no complaints when it comes to this book.

This was for someone else and they felt that it was too busy. For those who like mandala's, this would be a good book for you. I would recommend this seller.
