# How To Toilet Train Your Cat: 21 Days To A Litter-Free Home

## Synopsis

Follow this foolproof 21-day program and you can teach any litter-trained cat to use a toilet instead of a box. Discover a better way: Now cat owners everywhere can put down their scoops, stop ferrying backbreaking sacks of litter, enjoy a fresh-smelling home, and save hundreds of dollars a year. And make their cats happier, too! The requirements are simple: magazines or newspapers, masking tape, heavy-duty plastic wrap, a supply of litter, and a cat between the ages of six months and ten years (you can train an older cat, but it may take longer). Then, 21 days later, your cat will be using the toilet, just like any other civilized member of the family. For life. Toilet training a cat isn't just for the owner's convenience. Many cats equate the smell of the litter box with danger, causing constant stress, and the fragrances, dyes, and disinfectants found in most litters are detrimental to your pet's well-being. Yes, it's true: A toilet-trained cat is a happier, healthier cat.

THIS BOOK ADDRESSES AN IMPORTANT ISSUE . . . and offers an easy solution to one of the most troublesome problems any cat owner will ever face. (Roger Caras, author of *A Cat Is Watching*) Now There's a Better Way. No more scoop, no more box, no more heavy, soggy, bags. And no more "accidents." Using Paul Kunkel's foolproof 21-day program you can break your cat of the litter habit and teach him the clean, healthy, viable alternative of using the toilet. Along with illustrated day-by-day instructions, Paul Kunkel provides eight case studies.

Paul Kunkel is a freelance writer who toilet trained his first cat while in college and has been using

the method ever since. ã ã

Its a good short reader book and helps inspire for cat toilet training, I also enjoyed reading the segments in the book of other cats that toilet trained. I don't think the saran wrap method is for me and my 3 cat household, I got inspired to buy the kwitter litter kit and I'm working on that now. I in the process of learning that 21 days is probably too fast for cat toilet training, they need to learn slow. I noticed my male cat having problems, I thought he had a UTI, so I took him to the vet and they found nothing and figured its probably stress. I'm determined to toilet train my cats yet, so this isn't necessary the "bible" for cat Toilet Train, but it is a tool to inspire and give ideas!

Wish there was a forum or more information on setbacks. Both of my cats were great up until the Saran Wrap process. I am currently stuck on having the litter box directly on the toilet. Thinking about trying the roasting pan technique.

I haven't tried it yet but it's a great idea.

I returned this book and asked for a refund. This book is mostly fluff. The 1st 1/2 literally talks about "what is a cat". The first 2 weeks of the actual training are spent raising the level of your kitty's litter box to toilet height... Save your money and follow the instructions in your toilet training kit.

Easier said than done.

Great book. A real necessity if you're using a litter quitting kit with your cat.

Great theory, but didn't work for my cat. She got so pissed off (pun intended) at the device on the toilet that she began using the bathtub for her litter box. Oh well, at least I could wash it down the drain.

My very bright Maggie Smith caught onto this quickly. Caveat or should I say cateat: there is some need to wipe the seat after use. We have returned to litter. Perhaps when she's larger we'll try again.
