What seven-year-old boy I wouldn't love a book like this? He giggled and laughed like all young boys would reading about gross disgusting things. His four-year-old sister, as expected, was entirely grossed out Mission accomplished!

Purchased for 11yo grandson, who loves it. He is not much of a reader, but this book he can read and put down and then come back to later. He likes the material, perfect for his age.

My son loves this book! I love anything that encourages reading. He's 9 and it's been a month since he received it and he's still carrying it around, sharing all the facts he's learning!

For anyone who likes Ripley's Believe it or Not, this is a great book. Teenage daughter loves it.

Family enjoyed grossing out over this on a road trip. Kept them all entertained.

I bought this as a gift for my 11 year old son. He was not sure he'd like it but he read it out of curiosity. Mission accomplished.

Fun and kid friendly, but not a basic reader either. Have become a fan of the different Nat Gep books for kids.

My nine year old grandson loves fact books. This one is great!
