Customer Reviews

if you love scales... (okay you are strange) this is the perfect book for training.

The book is a scholastic jewel. It reeks of informaton on music theory for anyone patient enough to go through any part of the book with awareness and intelligence. I am an experienced violist/violinist and am intimidated by this book. Fortunately my teacher explains the subtleties as we go along. I can feel myself increasingly able not only to understand the intricacies of the physical demands of the exercises, but to increase my comprehension of the relationships between keys.This book is not written for beginners

Wonderful book for viola

The condition of the book i recieved was very good. Its not heavy and cover is beautifulBut the notes are a bit blurry. . . it is readable, but the print is definitely not top-quality.However, I got used to it after a while. . . But I would buy another one if I could go back in time!

Great music and a challenge! Shipping was fast and reasonable.

Awesome

excellent

Every violists must have!!
