This is definitely a page turner and all of the contributing writers provide inspiration to their readers.

My passion has laid dormant for a very long time. Finally I have come into my own after reading this book and I am even more inclined to follow my passion. I encourage everyone to take the time to read this book. It will definitely ignite a fire in your heart and soul to follow your passion and take many along with you. It is amazing how one person's empowerment can transfer to another like an infectious disease. I have found my passion . . . have you?

This book was right on time for me..... As I am finding less and less joy in my current work and looking toward another career. It helped me re-ignite all of the goals and dreams that I have allowed to lay dormant. I enjoyed reading the same topic from different perspectives that reinforces the idea that we are all going through the same things. I found it inspirational and I found the authors down to earth and touchable, they were willing to expose themselves to really drive home the point...Living with PASSION is living a life FULFILLED...It is a quick and easy read full of inspirational stories and ideas of how to find passion in your life!Carletus Willis[...]

This is just the book I needed for inspiration to get moving toward not just finding but 'acting' upon my true passion. Living a 'great life' is about much more than just making a lot of money. This book contains necessary ingredients for living 'great' financially, relationally and with importance on staying healthy all the while! I use it as guide book with highlights and book marks all over the place!
