## **Customer Reviews**

Came super fast. No tears or usage.

required for class

This review has nothing to do with the content of the workbook or the textbook. It's a warning to anyone buying the workbook as a self-study aid. The workbook DOES NOT CONTAIN THE ANSWERS. Neither does the textbook. I called the publisher and was told the only way to get the

answer key was through an instructor who was registered with Elsevier. As a student, I have no way of accessing the answer key. Since I have no official instructor, I can't get the answers, and the workbook is basically a waste for studying for the approved veterinary assistant exam. This is a little secret that is not in the description on nor made clear in the book itself.
