Customer Reviews

Love how this book is set up! I used this book for my Medication Aid class and am now using it for my Pharmacy Tech program. The amount of information you can find is so useful and this book has so many uses.

No nice condition for a used book with the exception of the pages for chapter review missing for most chapters. Thank God, my instructor decided not to grade those. The book is rather decent for my CMA class. I actually us this book compared to my CNA textbook which wasn't worth the paper it was printed on

This is the 2nd time I have rented this book, the first time it was in excellent condition. I re-rented this and this book is in horrible condition. The front cover is about to fall off and it's wrinkled and stained.

The book has rips and a ton of markings, some pages including the cover were folded. I wouldn't have spent $15 on this book. I was very disappointed.

Book was in bad shape, pages torn, written in. I better not get charged for everything that is wrong with it when I received it!!

The book is what I needed and I don't mind the writing or highlighting however, there are pages missing and that is so frustrating! Especially the chapter reviews being missing is super inconvenient!

LOVE IT

It was a good book, but will be nice if there will be answer key the back of the book will be helpful
