Customer Reviews

Not recommended. First, it's not an "Instant Pot" cookbook, but two pressure cooker recipe books sort of glued together. So breakfast items start on page 6 and 173 and there's no index, just a few general categories. The first couple of recipes mention Instant Pot and the specific control settings, most of the rest simply refer to a "pressure cooker" set on "low" or some such instruction. And many recipes don't even have that level of detail ("Cook in pressure cooker for 18 minutes"). The book is not professionally laid out. There is so much white space it appears somebody simply wanted a lot of pages. Misspelled words and typos abound, suggesting a hasty attempt to cash in on the Instant Pot craze. Plus, there's no index to speak of. Good luck trying to find something. I don't believe the good reviews either. Check them out. Who can review 30 plus books a month, some more than 10 a day? And all the books are "great"! Looks like pay to play to me... You can get better recipes and instructions from Google for free.

Since I have Instant pot cooker, all the dishes I prepare in it. This cook book is one of the best I've found so far. Everything is easy to follow and the dishes are very tasty. I've tried a few, and I can't

wait to try the others. With each recipe is placed and pictures of dishes, which is helpful for me when I'm serving meals. Recommended!

This book gives a very good summary of some of the Instant Pots features. The recipes use common accessible items and are provided with step-by-step instructions. If you are new to Instant Pot, I recommend this resource. The recipes on this book are very easy to understand and easy to follow unlike other book that I have read.

I chose this book because I have my pressure cooker for a years. And I was finding good source of recipes. So I found it .Very nice and good recipes are here
