Tribune Media Services distributes media products in a variety of languages and formats, including news, comic strips, television listings, and other information services, to international publications.

They were obviously made with the visually challenged in mind--VERY large pictures and writing. Seems a bit of a waste of paper, as they could easily have fit two to a page instead of one. Beginners (such as myself) should find them mildly challenging. I am enjoying them.

Anyone who likes jumble puzzles in the paper will enjoy this book There are 180 puzzles with a couple levels of difficulty. The book is like a large coloring book and, for the most part, has large printing (which I like).

I bought this for my wife, she LOVES the Jumble books and has completed 6 of them so far.

Range of difficulty. Lot.

This was one of the gifts we bought my Mother-in-Law for Christmas. I've looked in many stores and have never been able to find one with JUST jumbles! She was so excited! I think it was her favorite gift! We had contests between two people to see who could finish the jumbles the fastest. Even the kids enjoyed it! I talked to her the other day on the phone, and she said she takes it with her whenever she goes anywhere because she enjoys them so much!

Grandma loves her jumble books!

Jumbles are great brain games. With our complimentary skills, my girlfriend and I love doing these together. Terrific book.

This is just like the jumbles in the newspapers but I don't have to wait for the paper to arrive to work puzzles . This is a great book with a nice variety of puzzles. This book is worth the price. I will be ordering more of these. You can't find these in stores.
