After attending his first year at the University of Costa Rica, in the early 80s, Mynor was infected with the beautiful traveler's disease, with results so far incurable. His first big trip started in

Nicaragua, a country torn by war. He then crossed the border to El Salvador, another country plagued by guerrilla warfare. After surviving the crossing of Central America and the Mexican desert, Mynor came to the USA, before finally settling in Canada. Since then, he has accumulated thousands of miles, traveling around the Americas and other continents. He has worked and lived in Mexico, Colombia, Paraguay, Costa Rica, and many U.S. cities. Today, his home is in a suitcase, usually in a country or place between Brazil and Costa Rica. Most recently, Mynor spent over two years traveling the world and while in South America, He navigated several rivers in Colombia and Venezuela. It was there that he finally decided to achieve one of his most cherished dreams: to navigate the mighty River from its inception in Peru to its flows into the beautiful Atlantic coast of Brazil. After traveling in more than 66 countries, some of his favorite places are Thailand, Costa Rica, and China; but he lists Colombia and Sweden as countries on the list of places that everyone should visit before they die. In his own country, his favorite sights include visiting the active Arenal Volcano and lying on the Manuel Antonio beaches. Currently he is busy writing his upcoming books "Walking from Costa Rica to the " and : Wisdom and Life Lessons. One of his most memorable travel experiences occurred when a herd of monkeys stole his camera and lunch, while Mynor was enjoying the sea in Costa Rica's Pacific beaches. I think this has got to be one of the worst travel guides I have ever read. It offers no real travel information. Unlike other travel guides, there is no information about transportation, accommodations, area tours and operators, main attractions, contact information for travel agencies or suppliers, etc. Also, the book is badly edited, repeating much information multiple times.

This is more than a guidebook. It is a good book for an arm-side traveler to learn about the . But I have to admit, it makes me want to go. Mr. Schult has a respect for the land and his love for the is contagious.
