NYC Street Photography: It's The Joint

Synopsis

NYC Street Photography & It's the Joint is a collection of 10 of New York's most prolific street photographers today. Through their photography they tell stories from every corner of the city from the early 80s until the present day. NYC Street Photography captures the soul of the city, from grime to glitter. Stars, villains and everyone in between, people who together make New York what it is. Brian Nobili and Ricky Powell's first book as authors with Dokument Press is also the first volume of their NYC Street Photography book series. This work also includes images by highly acclaimed street photographers Jamel Shabazz, Joe Conzo, Sue Kwon, Cheryl Dunn, Craig Wetherby, Akira Ruiz, Peter Pabon and SDJ. "NYC Street Photography is a prolific collection of authentic New York City images brought together by Brian Nobili and Ricky Powell. Their lifetime relationship with the neighborhoods of New York and the people within these communities enabled them to assemble 10 New York City street photographers that capture the rhythms, movements and landscape of one of the world's most complex urban environments. This collection of photographers reflects the city as only someone can that is truly a part of the surrounding culture and possibly even influencing the culture. This is a must have collection of unfiltered unapologetic imagery." Jay McMichael Senior Photojournalist, CNN Former Radio Television Correspondents Association Dinner Chairman. "The concept of this book began when they participated in The Rickster's All-Star Classic Group show at MILK Studios to celebrate Ricky Powell's 50th birthday show in 2011. This show could have been a solo show for just Ricky, but instead he chose a group photography event showcasing the works of 1/3 living legends 1/3 "regular" photographers and 1/3 rookie phenomena. Showing those images together in one, single show at one of NYC's most impressive spaces generated attention of the who's who in entertainment as well as excitement worldwide. This book has a similar approach in that it presents a strong group of all-star photographers with all 5 of NYC Borough's represented through carefully curated pictures. What makes this book exciting is that it presents the work of photographers who are all recognized and respected within the genre in NYC itself and beyond. Coming from different ethnic backgrounds, religion, gender and age only enhances this humble presentation of NYC Street Photography and It's the Joint!

is an individualist recognized as a living legend in his own apt and the world at large. Known for his environmental portraiture, Powell's photographs focus on the organic New Yorker. His photographs simultaneously convey intimacy and detachment as they provide a unique lens through which the viewer can analyze the mundane. Powell considers the relationship between the photographer and the photograph to be "a chemical connection of some sort". The connection between Powell and his camera is only further stimulated by Greenwich Village, where he currently resides. is a recognized producer and street photographer working out of the Bronx's Little Italy neighborhood. His works have been featured in the press worldwide since 1995. He has also appeared (above the fold) in the NYT, Infamous mag, NBC/Universal, Juxtapoz, Frank 151, The Source, 12ozprophet, AdAge and Freeman's Auction house. While his first client was NASA, Nobili prefers his work out on the streets of the Bronx creating lasting time capsules before gentrification changes take hold in NYC's last holdout Borough.
