Casenote Legal Briefs: Constitutional Law, Keyed To Chemerinsky, Fourth Edition

Synopsis

After your casebook, a Casenote Legal Brief is your most important reference source for the entire semester. The series is trusted for its expert summary of the principal cases in your casebook. Its proven reliability makes Casenote Legal Briefs the most popular case brief series available. With more than 100 titles keyed to the current editions of major casebooks, you know you can find the help you need. The brief for each case saves you time and helps you retain important issues. Each brief has a succinct statement of the rule of law/black letter law, description of the facts, and important points of the holding and decision. Quicknotes are short definitions of the legal terms used at the end of each brief. Use the Glossary in the end of your text to define common Latin legal terms. Such an overview, combined with case analysis, helps broaden your understanding and supports you in classroom discussion. Each title is keyed to the current edition of a specific casebook; it's your trusted guide to the text throughout the semester. The brief for each principal case in the casebook saves you time and helps you retain important issues. Each brief has a succinct statement of the rule of law/black letter law, description of the facts, important points of the holding and decision, and concurrences and dissents included in the casebook excerpt. This overview is combined with a short analysis: all to help you broaden your understanding and support you in classroom discussion. Quicknotes at end of each brief give you short definitions of the legal terms used. A handy Glossary of common Latin words and phrases is included in every Casenote. Detailed instruction on how to brief a case is provided for you. A free Quick Course Outline accompanies all Casenote Legal Briefs in these course areas: Civil Procedure, Constitutional Law, Contracts, Criminal Law, Criminal Procedure, Evidence, Property, and Torts.

You can only use this as intended if it matches the casebook you are using. In this case, Chemerinsky's fourth edition. There is a brief for every Major case in the casebook (the ones with the red ink heading). The plethora of notes cases are not briefed, even though some of those are major cases that we discuss in class. This is definitely a worthwhile purchase for a Con Law law student taking the Con Law class using this casebook. Each brief gives an overview of the case as the Nature of the Case, Fact Summary, Rule of Law, and Issue in the case (basically, the pivotal issue that brought this case before SCOTUS). There is a more detailed overview of the case Facts (really helpful for highly-edited cases in the casebook), the Holding and Decision, then an Analysis which summarizes the important precedent or law that was decided in this case. Because a mere fraction of cases that are requested to be reviewed by the Highest Court are accepted, you can bet that every case decided by this Court will set a legal precedent. Each brief concludes with Quicknotes that tie it to the major clauses in the Constitution (e.g., Dormant Commerce Clause). This makes class preparation much easier, and will help avoid that deer-in-the-headlights look when being cold-called. Definitely worth the price, considering what you're paying for the class.

I was hesitant to buy this because there were some mixed reviews, but I have found that it has saved me hours of briefing time. It is not a substitute for reading, but once you've read it has taken out all of the important parts and has them very neatly organized for you. There is also a thing in the front like the "study aid" laminated cheat sheets where it lays out in columns all of the absolutely necessary information. That is a great tool when working hypos and you mostly get the material but you just need an arrow saying left or right, or you need to rule for a particular topic really quick. I would buy this again in a heartbeat!

This book consistently gets the rule of law wrong. The holding and the rule of law are not always the same. One of the main purposes of reading cases is to extract the rule of law so that you know how to apply the case and the law when you take your exam. This book always has the holding and the rule of law as the same. So I have found that this book is almost never helpful. You can get better case briefs than the ones in this book for free online. Skip this book!

When you have roughly 50 pages of cases to brief, not only in Constitutional Law, but in other courses as well, the time consumed in writing the brief, or making whatever notes you feel you need to make, is quite substantial. This publication does it for you and allows you to spend more time reading the case itself carefully knowing that an excellent brief has already been prepared for you. Highly recommended as a HUGE time saver, and that doesn't even consider that you'll probably end up with a better brief than you would have had time to prepare yourself.

Love Casenotes! This is my first year trying them out in law school and I will be buying a copy for every book I have in the future. Fast shipping so I didn't have to wait long at all to get started!

Bad book

Useful side source, except it conflicts with the logical flow of other outlines.

This book is a life saver!. 100% recommend before any other study guide!
