## Customer Reviews

"I feel prepared and inspired! This handbook on dyeing techniques offers a wide range of possibilities for creating color on wool fabric with an emphasis on rug hooking." (Brecia Kralovic-Logan, Shuttle Spindle & Dyepot 2014-02-28)

Gene Shepherd is well known in the rug hooking world as a teacher, blogger, designer, and author. He is director of Cambria Pines Rug Camp and is a frequent contributor to Rug Hooking magazine. He teaches and blogs from his home studio in Anaheim, California.

I am new to dyeing wool. In fact I am still gathering my supplies and in the planning stage. Using this book and Gene Shepherd's blog I am ready to go. Tons of information for the beginner and experienced dyer. Recipes and techniques seem straightforward and easy to follow. There are so many different techniques for dyeing and this book covers all that I want to try. I have ordered a few books on dyeing wool and this is my favorite for all round info. I would recommend this book to anyone dying to start dyeing. Wish me luck!

Wonderful! However, the binding is terrible. I have had it 2 months, read it through, opened it today and noticed the first 20 pages were loose. Tonight, after having read through a dye recipe, page 15 is no longer attached.

Very good book for dyeing any kind of wool or protein fiber even tho it is for dyeing wool fabric.

What a wonderful book! It has 186 pages filled with beautiful pictures and lots of information. It is one of the best books I have ordered in a while. It shows how to set up a dye kitchen, preparing fabric, mohair and yarn for dyeing and step-by-step pictures of how he achieves the different dyeing techniques he uses. I am glad I ordered it.

The only thing I didn't like about this book was that he uses 20 basic colours I can't get in the book. The techniques though, are demonstrated very clearly both visually and in text. It will take a little courage to figure out what colours of my own I will put together but I feel I have enough knowledge now to try. Great resource!

Excited about this very informative book. Arrived as scheduled and in perfect condition. Definitely recommend for those interested in dyeing. Very detailed instructions and beautiful color pictures

Saved hundreds of dollars because of information I found in the book. See my results in the pictures I posted here.

New at rug hooking and advised to start dying my own wool. Put it off until this wonder book published by Rug Hooking Magazine came out. With photos assisting and easy to follow directions I'm hooked after just my first attempt.
