## Customer Reviews

I read the books. Now listening to them on CDs are even better!

Awesome!

The whole series is a must read for everybody.

enjoyed this whole series! will be ordering more.

Part of a great story

Great! The entire series is wonderful. The authors had to have a special inspiration from God in putting together the details. I listened to this about 6 years ago and again this month--today, I can see the progression of earth's events--just as depicted in the audio. One suggestion: would like to have had musical effects and sound better balanced--small parts were barely audible others

overwhelming. Overall...I would definitely recommend it--and would listen again!

I had heard parts of this series on the radio years ago. Loved it and wanted to hear them all.

good
